

Smart-Pay Program

Ascend, Executive Jet Management's (EJM) flat-rate flying program, is the ultimate blend of accessibility and value for our clients and was developed in response to clients who need dependable aircraft availability and an easy way to manage their air travel spend with a simple and consistent pricing model.

10 Reasons Clients Love Ascend:

1. Consistent, dependable rates based on aircraft cabin size, with built-in discounts for Ascend members
2. Only the time spent in the aircraft is debited from your account
3. You always know what you'll pay for a trip based on fixed hourly rates for each aircraft cabin size
4. Program flexibility – funds on deposit can be applied to any flight with Executive Jet Management
5. One call is all it takes – no waiting to learn of aircraft availability or Owner approvals
6. Guaranteed availability 320 days a year
7. Access to the safest and largest managed fleet in the world
8. Very low risk – your deposit is available for use for up to three years
9. Bookkeeping is simplified – no invoices to pay and charges are simply debited from your deposit
10. Ascend prices represent the most competitive program pricing available while delivering the best value to our clients

How it Works

Getting Started

You provide a minimum deposit of \$100,000 and can make additional deposits to your account at any time. When you make your initial deposit, our team establishes your account and sets up your personal profile

Your Account

After the flight, your deposit account is automatically debited. You never have to pay a bill. The debit amount is based on the actual time the aircraft flew vs. estimated flight time. This means that if it takes less time to travel than estimated, you pay less. Additional charges may include catering, ground transportation, fuel surcharges, and taxes.

Booking Your Trip

When you are ready to book a trip, call us with your travel dates and preferred aircraft cabin size and we'll take care of the rest. You can choose from any one of the five sizes we offer (small, mid, super-mid, large, or heavy). There is guaranteed availability 320 days a year and no limits to how many planes you can secure each day.

Ascend lets you take advantage of the safest and largest fleet in the industry and the finest service available in private aviation while receiving consistent pricing with built-in discounts and reliable aircraft availability!

Contact us today to learn more about Ascend or to book your next trip.
