

ROBERT MOLSBERGEN

President
COO, Global Aircraft Management
Executive Jet Management, Inc.

Robert Molsbergen is the president of Executive Jet Management (EJM), based in Cincinnati, Ohio and chief operating officer of NetJets Inc.'s global aircraft management businesses.

Under his leadership, EJM will continue to focus on expanding its global aircraft management operations and jet charter services while providing superior customer service to private aviation clients around the world.

Prior to his appointment with EJM in January 2014, Molsbergen held key executive level leadership positions throughout his 20+ year career, including:

- President of Easy Energy Systems, a manufacturer of modular micro bio refineries that produce fuel-grade Ethanol and other renewable products
- President of MD Helicopters, Inc., a private equity-owned international manufacturer of commercial and military helicopters
- President and board member of Innovation Plus, LLC, a private high-tech inventor and manufacturer of advanced electronic products and services
- Chairman and CEO of EMTS, a major global marine services company engaged in shipbuilding, ship repair, and ship maintenance in the Netherlands

He is a U.S. patent holder and studied Economics and International Business Administration at Erasmus University in Rotterdam, the Netherlands. Additionally, he earned a Marine Engineering degree from Astilleros Espanoles in Bilbao, Spain.
